Silver Wedding Anniversary.

On the evening of the 3rd of March a number of friends gathered at the home of Mr. and Mrs. Martin Jacobsen in order to surprise them on their 25th wedding anniversary.

The living-room was attractively decorated in white and silver, and twenty-five candles were lighted. A short program was held in honor of Mr. and Mrs. Jacobsen, which opened with an address by Pastor J. Kuring and a hymn of thanks. Then followed solos, recitations and community singing of the songs of 25 years ago, after which a purse of money was given to the honored couple. The program concluded with the cutting of the anniversary cake.

An enjoyable evening was had by all, everyone wishing Mr. and Mrs. Jacobsen health and happiness, and expressing the hope that they may be privileged also to celebrate their 50th anniversary.

Will Organize For Royal Visit

A meeting was held at the Didsbury Public School on Friday last to discuss plans and proposed facilities for schoolchildren to attend the celebration of the City of Calgary on May 26th in honor of the visit of the King and Queen. The meeting was attended by representatives of all the various organizations in town.

It was recognized, that with the huge crowd that must inevitably be in Calgary on May 26th, that careful arrangements would have to be made, insuring not only local school children but also rural children in adjacent areas, an opportunity to attend the two-hour celebration.

Various aspects of the problem were given consideration and after some deliberation it was decided that an organization should be formed, whose function would be to give the matter the organization and planning required. The following officers were elected:

President: C. E. Reiber

Secretary: O. J. Kirk

Executive

I.O.D.E., Mrs. Chas. Mortimer

Guides, Mrs. R. G. Ady

Scouts, Al. Thomas

School Board, Dr. Liesemer

Junior Board of Trade, E. Ford

Olds School Division, S. J. Gilson

" " " W. H. Davies

Legion, J. D. Thomas

" " " W. W. Gillrie

Masons, W. A. McFarquhar

Transportation, J. A. McGhee

Westerdale and Mountain View

municipal representatives to be appointed.

Finance, C. E. Reiber, W. A. Austin, L. Dunlop.

Entertainment and Lunch, W. A. McFarquhar, Mrs. J. E. Hugel,

(one to be appointed from the Legion).

Transportation, J. A. McGhee,

E. Ford, Art Thomas.

The meeting was called by the local branch of the Canadian Legion. The Calgary branch of the Legion is doing a tremendous job in the city, for they are in charge of considerable organization there. Among numerous other duties they are acting as guards along the entire route of the procession.

A.Y.P.A. Reorganized.

The St. Cyprian's (Didsbury) branch of the Anglican Young People's Association has been reorganized, with the following officers in charge:

President, Ronald Thomas

Vice-President, Ed. Carleton

Secretary, Edith Pratt

Treasurer, Frank Carleton

Mrs. Lowrie is again leader of the group.

BIRTHS

Didsbury General Hospital.

March 2nd. To Mr and Mrs Otto Harder of Carstairs, a son.

March 3rd. To Mr. and Mrs. Claude Shields, a daughter.

March 5th. To Mr. and Mrs. Arnold Blain, a son.

Fish and Game Lecture and Pictures.

The Didsbury Fish and Game Association put on an educational feature at the Opera House on Tuesday evening, when Mr. George Spargo, director of fisheries for the province and secretary of the Alberta Fish and Game Association, gave a talk and presented moving pictures of Canadian wild life. The hall was filled to capacity and there was an especially large attendance of children.

The moving pictures, which were thoroughly enjoyed, included "Grey Owl and his Beavers," "Forest Fires and Game" and films depicting the work of "Ducks Unlimited."

Mr. J. A. McGhee, chairman, in his address outlined the work of the Fish and Game Associations, citing how they had introduced the Hungarian partridge, Bob White quail and Chinese pheasant into the province and told of the present efforts being made to introduce the Chukar partridge. He stated that 500 of the latter birds were to be released by sportsmen of Southern Alberta and that the local association had arranged to have a number of these birds planted in this district. He complimented C. H. Adhead and Ken McCoy for their efforts in raising the money to purchase the birds and also obtaining such a large membership.

Mr. George Spargo, after the pictures, gave a short talk on fish and game in the province. He commenced by asking the children questions on song birds, game & fishing. Out of eleven questions asked he got ten correct answers and gave a nickel to each kiddie who gave the correct answer.

He complimented the local association on their membership which he said was the largest in Alberta outside Calgary and Edmonton.

He said he was sorry the government would not put fish hatchery on the Raven, but it was the intention to put in rearing pond to raise 70,000 fry to the fingerling stage. He also intimated that the limit would be taken off bull trout as it was desirable to decrease the quantity of this fish in the streams.

After the meeting Mr. Spargo discussed fish and game with members of the association.

Evangelical Church Notes

The pastor's morning subject on Sunday morning will be "Leadership of Jesus." In the evening the theme will be "The All Important and Personal Question."

The Brotherhood will meet on March 14th at 8 p.m. and every member should endeavor to be present.

A series of special meetings will be held in our church, commencing March 28th and continuing over Easter Sunday. Rev J. H. Ohlerting of Billings, Montana, will be the evangelist.

Amateur Night.

That there are lots of budding entertainers in Didsbury and the adjacent districts was evidenced last Thursday night when fifty competitors displayed their talent in the Amateur concert sponsored by the Junior Board of Trade. Mr. C. R. Ford acted as director.

Mr. Benn, of the Olds School of Agriculture; Mrs. Hugel; and Miss Weiss, of Rosebud, were the judges, and they had no small task selecting the winners.

The eight who received the top awards will take part in a broadcast this (Thursday) evening from the stage of the Didsbury Opera House over CFAC from 10 to 10:30 and will participate in the \$100.00 Amateur contest conducted by that station.

The contestants who won a place on the broadcast were:

Recitation, Olga Dupont

Piano Duet, Jean and Mary Robertson

Vocal Duet, Dorothy and Adeline Buhr

Vocal Trio, Betty Boorman,

Gladys and Dorothy Geeson

Tap Dance, Ethel Landeen

Vocal Solo, Gladys Geeson

'Cello Solo, Betty Boorman

Male Vocal Solo, Alex Robertson
Other prizewinners were:

Piano Solo, Nora Barrett

Junior Vocal Solo, Lydia Janzen

Recitation, Donald Radford

Vocal Solo, Laura Weige

Piano Duet, Mrs. V. and Doreen Gillrie

Vocal Duet, Dorothy Hehn and Mary Wigglesworth

Humorous Solo, Jack Robertson

Instrumental, Ringheim Bros.

Mother and Daughter Social

The Mother and Daughter's social given in the Parlour of the Evangelical Church on Monday evening, March 6th, was an outstanding event of the Ladies Aid and Young Peoples Missionary Society. Miss Eva Rupp occupied the chair and Miss Lila Wigglesworth acted as pianist.

The program for the evening was as follows, with both groups taking part: Instrumental solos by Joan Bersecht, Ruby Tuggle, and Mildred Deadrick. Duet by Miss Ethel Thaler and Mrs. Ezra Dippel, duet by Mary Wigglesworth and Dorothy Hehn. Instrumental duets by Mary Wigglesworth and Mildred Deadrick, and Ruby Tuggle and Wilma Liesemer.

The speakers were Mrs. J. Tuggle, Mrs. A. Deadrick, and Mrs. Reiber on the subject, "The Girls of Yesterday, their Customs, Costumes and Church," while Lucille Ford,

Golden Wedding Anniversary.

On the 28th of February a banquet was held at the Westcott School in honor of Mr. and Mrs. Wm. Dageforde, who celebrated their golden wedding anniversary. The arrangements were made under the auspices of St. Paul's Ladies' Aid.

The school was nicely decorated in white and gold, and fifty candles were burning upon the tables as the surprised couple entered the room. A delicious supper was served.

A bouquet of yellow roses was presented to the honored guests by the president of the Ladies' Aid. In a short address Pastor J. Kuring pointed out that it was only by the grace of God that they were privileged to walk the path of life together for fifty years, and that to Him alone belongs all glory and praise, whereupon all joined in singing a hymn of praise and thanksgiving.

The toastmaster then called upon some of the oldtimers to relate some of their experiences of the days gone by. The many interesting speeches and recitations were interspersed by community singing, solos and musical selections. The festivities were closed by the presentation of a purse of money to the honored pair, after which the anniversary cake was cut. It was a celebration which will long be remembered by the close to a hundred friends and neighbors who were present on this occasion.

Mr. and Mrs. Dageforde have nine children living, three in California, four in Portland, Oregon, two in the district; and twenty-two grandchildren.

We wish both Mr. and Mrs. Dageforde health, happiness and peace for the future, and may God grant that they may enjoy many more wedding anniversaries.

WEDDINGS

A quiet wedding was solemnized in Knox Mance when Miss Helen E. Mullen, of Didsbury, became the bride of Mr. Frank C. Ausmus, of Olds. The marriage took place on March 2nd.

Helen Armstrong and Iva Rupp spoke on the custom, costume and church of the girls today, both talks being interesting.

Miss Rennie, Betty Fulton and Dorothy Liesemer gave very peppy songs, and group songs were enjoyed.

The daughters found their mystery mothers, through a bandana worn by the daughter and a similar one worn by the mother. This was a very delightful part of greetings were passed. The tables were tastily arranged with covers placed for 50. The refreshments served were likewise in keeping with the topics of the evening.

Science And Agriculture

Perhaps never in the history of Western Canada has what is currently designated the agricultural problem received so much attention as it is doing at the present time, but the problem of enabling the farmer to reap a margin of profit on his operations, or even sufficient to cover the cost of production and marketing has not yet been solved.

To a greater or less degree the problem is one that is vexing the whole world, for the agricultural industry is in the doldrums in almost every country on the globe, but due to the character of the industry in Western Canada where the farmer must sell his major product in a highly competitive market and buy the implements of production and necessities of life in a protected industrial sphere the problem is more acute here than anywhere and this differential has been accentuated in recent years by the vagaries of climatic conditions.

It is not, therefore, surprising to find that the question is uppermost in the minds of all men in the west; that it is receiving foremost attention whenever and wherever men congregate in convention; that the question is being ventilated with greater frequency than any other in the legislative assemblies of the country; that discussion on it and many phases of it occupies much space in the newspapers, farm magazines and other publications and that it is the subject of inquiry by innumerable organizations and commissions.

With all this discussion going on, on a subject which everyone recognizes as the most vital one in Western Canadian history, it seems a reasonable assumption that if there is a solution, and there must be one if this country is to prosper and have an assured future, it will be found.

As has been suggested before, innumerable proposals have been made as a solution to this great problem. They include among others; international agreements between the great wheat producing countries, national action in the form of subsidization of the agricultural industry by the country as a whole, a method which is now being given a trial with as yet undetermined results; the discovery of new markets; the expansion of existing markets; the stimulation of the home market in the direction of increased consumption; greater diversification of agricultural practice; the conversion of agricultural production to industrial use.

In Several Directions

Whole volumes might be written on all these proposals, all of which have some merits and some defects, but space and time forbid. All of these and other plans for the rehabilitation of western agriculture are being heard by the group headed by Premier Bracken of Manitoba which is now making a comprehensive survey of the whole question in the hope of finding the answer to the riddle.

As has also been suggested before, however, it is probable that the ultimate solution of this engrossing problem does not lie wholly in any one of these orbits, but most likely in a combination of many or all of them, and there are some indications that readjustment is actually taking place, painful and lengthy though the process may be.

It has undoubtedly occurred to many who have given serious thought and study to this problem that at least a partial and a happy solution might be found in some course which would result in a closer relationship between agriculture and the manufacturing industries, for to the extent which these two branches of industrial life can be made dependent upon one another, to that extent will both be benefited and the solution of the problems of both be closer to solution.

A Closer Tie-Up

That already something is being done along these lines as the result of research work and the practical application of laboratory findings, was indicated in a recent contribution in the House of Commons by W. G. Weir, Liberal member for Macdonald, who described some of the things science is doing to bring industry and agriculture together in the United States, when he pointed out that Henry Ford is using in his factories annually 60,000,000 pounds of cotton, 100,000 bushels of corn, 2,300,000 gallons of molasses, 3,200,000 pounds of wool 1,300,000 square feet of lumber, 350,000 pounds of mohair and an unlimited supply of soy beans.

Mr. MacDonald stated that three products have been developed from oats and are being sold in the United States—a fine oat flour with peculiar preserving qualities, a pleasing perfume which is competing annually for a share of the \$200,000,000 spent yearly in the U.S. for cosmetics, and furfural, which when mixed with a bituminous binder and dirt, is being used to make satisfactory market roads at a cost of \$2,500 a mile.

Conservation Work

To Stock Marshes With Beaver And Muskrat

Beaver will be called upon in the next few years to do a job too big for man and science, Col. T. C. Newcomen, administrator for Ducks Unlimited, game bird conservation, society, declared in an address at Edmonton.

The job, he said, will be restoration of water-levels in lakes and marshes in northern Alberta and Saskatchewan. Three large areas in northeastern Alberta already have been set aside for such work through an arrangement with the Alberta government, he said.

Beaver and possibly muskrats will be stocked at the bottle necks leading from the marshes and lakes to the larger rivers. Col. Newcomen expected supervised trapping in areas would be permitted after five years. Indians and half-breeds now inhabiting the areas will be employed as paid game guardians, he said.

How You May Reduce Varicose or Swollen Veins—Heal Ulcers

A Simple Home Treatment

The world progresses. Today many minor ailments that took weeks to overcome can be helped much more quickly. If you have varicose veins or bunions, start today to bring them back to normal size and if you are wise you will do so.

Just get an original bottle of Stinson's "Eradicator" or at any dispensing pharmacist and apply it right and morning to the enlarged veins. In a short time the veins should begin to grow smaller and by regular use soon approach normal.

People who want to reduce varicose veins or swellings, should not hesitate to try a bottle at once. It is so penetrating and so powerful that a small bottle lasts a long time.

According To Survey

Women Are Less Likely To Contract Pneumonia Than Men

Men are more apt to contract pneumonia than women.

This conclusion was reported by the United States Public Health Service on the basis of a survey of pneumonia frequency in 1937. The survey disclosed, the health services said, that the rate among males was six per 1,000 persons and among females 4.9.

No conclusion was reached as to why men are more susceptible.

The report also said it was found that pneumonia strikes with greatest frequency in the lower income groups.

"The pneumonia case rate among relief families was over twice the rate of that among families in the upper income groups," the report said. "There was also an excess in the rates among families who were not on relief, but whose incomes were less than \$125 a month."

Obeys Radio Commands

Dog Trained By Australian Police Responds Perfectly To Set

The police in Sydney are training Alsatians to obey radio commands. Zoe, the only dog fully tested, has reacted perfectly to a set carried on a back saddle. It weighs eight pounds and includes batteries, a loud-speaker and an aerial. Zoe has carried out the following radio orders: Fire a revolver, climb an eight-foot trestle and return backwards, turn on a tap and fill a water can, and remove and replace collar. When the set was first strapped to her body, Zoe registered amazement at the voice emanating from it, but quickly accepted the instructions.

Bristol county, R.I., is the smallest county in the United States, having an area of only 24 square miles.

It is possible for an aeroplane to make a safe landing with only half a propeller.

CLEARSTUFFY HEAD

Helps Prevent the Development of Colds, too

For 24 Years Vicks Vapo-Rol has been passed upon by a Board of Physicians.

NOW, it's easy to relieve head cold discomfort. Just put a few drops of Vicks Vapo-Rol up each nostril and feel the tingle as Vapo-Rol's stimulating medication reduces the swollen membranes, clears away the clogging mucus, helps to keep the sinuses from being blocked by the cold—lets you breathe again.

NEXT TIME, don't wait until your head is all stuffed up. At the first warning sneeze or sniffle, use Vapo-Rol at once—it helps to prevent many colds from developing.

Vapo-Rol is specialized medication—expressly designed for the nose and upper throat where most colds start. Used in time, it stimulates Nature's own defenses to fight off many a cold, or to throw off head colds in their early stages.

VICKS VAPOROL

England's Highest Honor

Bronte Sisters May Be Commemorated In Westminster Abbey

The Buffalo Courier-Express says tribute will be paid not only to three Yorkshire novelists, but to fiction writers in the English language and to women in general by the proposed commemoration of the Bronte sisters in Westminster Abbey, England's highest honor.

Emily, Charlotte and Anne Bronte belong not only to England but to every person anywhere in the world who can read a book in English. Jane Eyre is one of the great novels, read and beloved by millions in generation after generation; Wuthering Heights, which long was overshadowed by Jane Eyre, has grown in favor during the last few decades, librarians say, and may one day assume stature equal to the more famous book in the affection of booklovers. Both books have been made familiar to the public of stage and screen, and the Bronte sisters themselves have been fascinating subjects for biographers, novelists and playwrights.

Many novelists, renowned in their day and perhaps a few years after, are forgotten. Few who read to-day bother to wade through Trollope or Reade or Hardy or Meredith, but the Brontes are as alive as ever. It is surprising that Westminster Abbey waited for them so long.

SELECTED RECIPES

DOWN-SOUTH BISCUITS

4 cups sifted cake flour
1 teaspoon baking powder
1/2 teaspoon soda
1 teaspoon salt
1/2 cup lard
1/2 cup buttermilk or sour milk

Sift flour once, measure, add baking powder, soda, and salt, and sift again. Cut in shortening. Add milk gradually until soft dough is formed. Turn on floured board and knead lightly two minutes. Roll 1/4 inch thick; cut with small floured cutter. Bake in shallow pan in hot oven (450 degrees F.) 12 minutes. Makes 2 1/2 dozen biscuits.

PUMPKIN PIE

Pastry for 9-inch pie
1 1/2 cups coconut, premium shred
2 cups cooked mashed pumpkin
1 cup sugar
1/2 teaspoon mace
1/2 teaspoon cinnamon
1/2 teaspoon allspice
3 tablespoons melted butter
3 eggs, slightly beaten
2 cups milk, scalded

Line a 9-inch pie plate with pastry, rolled to 1/4-inch thickness. Combine ingredients in order given and mix thoroughly. Pour into pie shell. Bake in hot oven (450 degrees F.) 20 minutes, then decrease heat to moderate (350 degrees F.) and bake 30 minutes longer.

Besides being used in medicines in China, fireflies furnish a grease, which is used by Oriental woodworkers for hardening bamboo.

No Disarmament

Says U.S. Government Must Arm For Protection Of Nation

Cordell Hull, secretary of state, said there was no basis for hoping for a world disarmament conference at this time and that the United States government should "carry out its responsibilities for the protection of the American nation."

Replying to a letter from Representative Ludlow (Democrat, Indiana), he said the United States had repeatedly declared its willingness to disarm. Recalling the world conference at Geneva in 1932 and the naval conference in London in 1935, he said:

"Unfortunately, nothing has happened since that time which gives any basis for hoping that the obstacles which stood in the way of reaching an agreement among all the principal naval powers have in any way changed for the better."

Develop Trade

U.S. May Arrange Extensive Barter Deals With Germany

German sources said negotiations were under way for extensive barter deals with Germany and organizations of farmers and packers in the United States Midwest.

Under such deals, which official American sources said could be handled by non-governmental agencies without any special permit, the farmers and packers might exchange their agricultural goods for German-manufactured articles.

Dr. Wilhelm Tannenberg, first secretary of the German embassy at Washington, told representatives of midwest co-operatives it was said, Germany would be glad to enter into barter arrangements for land and wheat, taking several hundred tons of land and 150,000 tons of wheat.

The duckhawk prefers to take its prey on the wing. It will land on a limb beside an intended victim, knock the bird off, and capture it in mid-air.

Considerable damage may result if an automobile starter pedal is pressed while the motor is running.

H. M. S. Repulse Boasts A Romantic Link With The Dominion's Early History

H.M.S. Repulse, wartime flagship of Britain's first battle cruiser squadron, chosen to take the King and Queen to Canada, boasts a romantic link with the early history of the Dominion.

When the 32,000-ton "floating fortress," glides up the St. Lawrence towards Quebec next May, she will be following a route familiar to a distant predecessor.

Nearly 180 years ago when Britain and France were fighting desperately for sovereignty on the North American continent, the 676-ton French frigate "Bellone" was captured by the British "Vestal", below Quebec. The prize was promptly renamed "Repulse" and commissioned for service as a man-of-war under Capt. J. C. Allen. A week later the ship was engaged on patrol while the British fleet of 49 men-of-war, under Admiral Sandus began its 12-weeks' siege of Quebec, ending in the history-making triumph for British arms on the Plains of Abraham.

The renamed "Repulse", second vessel of that name to sail under the British flag, figured in another engagement on the St. Lawrence in July, 1760. With a number of other ships, the "Repulse" was combating the river for enemy craft when three French frigates suddenly hove in sight near Montreal. The British closed in and opened fire with such telling effect that the frigates were put out of action and sunk within a few hours.

This was but one of many episodes in the life of the second "Repulse". She took a prominent part in Admiral George Rodney's exploits culminating in the capture of Martinique in 1762. She was also present at the reduction of New York, Sept. 1776. Three months later she was wrecked off Bermuda.

Altogether 12 British warships have borne the name "Repulse." First of that name was launched at Deptford in March, 1596. Although only 622 tons, she carried an armament of 38 heavy and 12 light guns and was known as a "Great Ship." Her chief claim to recognition was participation in the attack directed against Cadix on June 29, 1596, an expedition led by Admiral Robert Devereux, second Earl of Essex. The ship was also with the expedition under Admiral Sir R. Laxson against the French port of La Rochelle in the summer of 1602.

The third "Repulse" also saw service in American waters. Launched at Cowes in November 1780, this ship was of 1,337 tons displacement and carried 64 guns. Shortly after being commissioned she was sent under sealed orders towards the Mediterranean and there figured in Darby's gallant relief of Gibraltar. During the winter of 1781 the ship

was recommissioned and assigned to the Jamaica station. She won further laurels in the Battle of the Saints, the name given to Rodney's victory of April 12, 1782, over the French fleet under De Grasse, near the Saints Islands, off Dominica. Like her immediate predecessor, the third "Repulse" ended her career in Davy Jones' locker. She was wrecked off Ushant on March 10, 1800.

H.M.S. Repulse the eighth was yet another of the line leaving a record of brilliant exploits. Commissioned for the North Sea fleet in 1803, she was of 1,706 tons and armed with 74 guns. Her first major achievement was the capture of a Spanish treasure ship off Ferrol, Spain, early in 1805. Two years later she won distinction in the Dardanelles and was in the thick of the action during the bombardment of Flushing in August 1809.

Her scroll of battle honors also lists several skirmishes with French men-of-war. On August 10, 1813, her guns took heavy toll in the capture of the French battery near Genoa. As she sailed away she encountered and destroyed a French convoy.

The modern "Repulse", at present undergoing her second transformation and re-fit since her launching in 1916, will emerge from her Portsmouth drydock sometime next March. Spick and span in a new coat of paint, with special accommodation for the King and Queen and their suite, and the latest armaments, she will leave for "shake down" cruise in the Mediterranean before final touches are applied for the royal trip to Canada.

H.M.S. Repulse has already been commissioned with a full crew of 900-odd. Most of the ratings are Devonport men from the Battleship Royal Oak, now in dock for re-fit. It will mark the first time a west country crew has manned a ship selected for a royal cruise.

During the last two years of the war "Repulse" served as Rear-Admiral R. F. Phillimore's flagship. Although she sighted several enemy ships at long range she escaped the experience of a major action.

In 1923-24, the "Repulse" was a unit of a British squadron which cruised around the Empire. At that time she visited Victoria, Vancouver and Quebec, with a brief halt at St. John's, Newfoundland. The battle cruiser also had the honor of carrying the present Duke of Windsor, then Prince of Wales, on his 1925 visit to South Africa, Argentina, Uruguay and Chile.

Capt. E. J. Spenser will be in command of the ship for the Canadian trip, with S. L. Bateson as Commodore. Sir Dudley North, vice-admiral of His Majesty's yachts, will also be on board as member of the King's suite.

Friendship By Mail

London, Ontario, And London, England, Scholars To Exchange Letters.

School children of London, Ont., and London, England, are about to develop a friendship by mail scheme.

Plans for exchange of letters by students of the two cities are being worked out by the London County Council education authority and the London, Ont., Board of Education.

The scheme grew out of a visit to the Ontario city by E. M. Rich, London County Council education officer in 1937. He presented to some of the schools there a number of L.C.C. coronation mugs.

Boys and girls between the ages of 12 and 14 will start exchanging letters with pupils of about 20 or 30 different schools. There will be about 400 correspondents altogether on the two sides of the Atlantic.

Had To Be Destroyed

When the World War ended, the United States had on hand 419,000 mustard gas shells, each calculated to put out of action everything within 50 yards of its explosion. Since there was no place on earth where the shells could be exploded safely, they were taken to sea and sunk.

When placed in water, the roots of the soap plant, native of Colorado and Mexico, form suds for the washing of clothes.

Dairy Farming

One Bright Hope In Rescuing Agriculture In Canada

Adjustments in farm practices which dairy cattle breeders' organizations are helping to bring about present "the one bright ray of hope in rescuing agriculture in Canada from its present deplorable condition," President S. G. Sims told the annual meeting of the Holstein-Friesian Association of Canada at Toronto.

"To the extent that dairy farming develops and prospers in Canada, to that extent will we succeed in placing farm practice on a sounder basis," said the Stonewall, Man., dairy farmer. "Depletion of soil fertility, impairment of the physical condition of our soil and subsequent soil drying, branching out from the one-crop system in the west with its attendant problems of rust and root-rot are all present-day problems in agriculture."

A change in existing farm practices from "doubtful revenue once a year" to a plan of weekly revenue was needed, said Mr. Sims in a review of the past year's activities of the association. Trade with the United States had been encouraging, about 6,000 pure bred Holsteins having passed the necessary tests for that market.

Great Britain needed large numbers of cows and heifers for replacement of cattle condemned in the process of wiping out bovine tuberculosis and Bang's Disease, and the president said Canada is the most accessible source of supply. Shipment already made had proved satisfactory and the outlook for Holstein-Friesian breeders was "more cheerful."

Place Names

British Columbia People Puzzled Over Pronunciation Of Ymir

There are many Canadian place names which the average newspaper reader prefers to spell out rather than to try to pronounce. That of the mining town Ymir, lying south of Nelson, B.C., is a case in point.

One of those whom it has puzzled wrote the other day to the Financial News in Vancouver for enlightenment. He was told that the people of the community in question pronounce the "y" to rhyme with "pie" and the "mir" with "ear". This leaves doubt still as to whether the "y" should be sounded like that letter or like "i".

But the Journal learns from a person acquainted with the locality that "y" is right, according to the usage there, making the pronunciation "Wimur". The Vancouver editor stated further that a resident of the coast city who was in the vicinity of Ymir in 1890 discovered that the name antedated the arrival of the white man and was believed to be of Indian origin.—Edmonton Journal.

Has No Visible Outlet

Lake Nanyasha, in East Africa, is 17 miles long, 12 miles wide, and has no visible outlet, being surrounded by mountains. It never floods, although there are two rivers which daily pour into it more water than is taken away by surface evaporation.

Honored By King George

Royal Augmentation Added To Arms Of Earl Of Strathmore

An unusual honor has been bestowed by His Majesty the King on the Queen's family, says the Weekly Scotsman.

"Being desirous of evincing in an especial manner Our Royal Regard for the ancient family of Lyon and illustrious House of Strathmore"—so runs the Royal Warrant—"and in particular of commemorating in the ensigns armorial thereof that Her Majesty the Queen is a daughter of the said most noble and ancient house, and descended not only from the ancient Barons and Thanes of Glamis and Tannadycro, but also from the Royal Family of Scotland, His Majesty has granted to the Lord Lyon King of Arms to add a royal augmentation to the arms of the Earl of Strathmore and Kinnoull and his successors."

The augmentation consists of an inescutcheon emblazoned with the Imperial Crown and a Rose such as was borne for a badge by the King while Duke of York, and a treasure encircled as borne in the Royal Arms, the said inescutcheon to be ensigned with an Earl's coronet.

In terms of the Royal Warrant, the Lord Lyon has now constituted a Lord Strathmore's arms.

Cheaper Housing

Lower Cost Homes Are Needed To Stimulate Building

Cheaper housing, permitting construction of homes for \$2,500, is needed in Canada, J. E. Jones of the Dominion Housing Administration told the Canadian Lumbermen's Association at Montreal.

If right designs were chosen and prices kept within reason, home-builders would secure good value for their investment.

Construction volume in Canada dropped from \$139,000,000 in 1929 to a low of \$24,000,000 in 1933, Mr. Jones declared. More than 78 per cent. of the loans under the Housing Administration last year were for dwelling units costing \$4,000 and less. Loans during the year totalled \$14,642,000, an increase of 82 per cent. over the previous year.

Last year 20 per cent. of the total family housing units approved by the Government were for \$2,500 or less. Of the total residential construction contracts awarded last year amounting to \$55,000,000 approximately one half were financed under the National Housing Administration.

Unusual Way To Work

The author of "Under Two Flags" once wrote all her novels with quill pens and threw each page on the floor as it was finished. When a sufficient pile of paper had accumulated, she would pick it up and put it in order.

Luxury Is Yours In Little Time

Household Arts by Alice Brooks

Done In Two Strands of String It's Quickly Made

PATTERN 6270

If you love beauty you'll want to own this lovely 92 inch cloth. It's done in a double strand of string. By crocheting it in a single strand or in fine cotton you can make cloths of various sizes. And if you'd like a scarf for the buffet, crochet just the centre part including the solid band. Simple beauty of design gives this cloth a richness hard to surpass. Pattern 6270 contains instructions for making cloth; an illustration of it and of stitches; materials needed.

To obtain this pattern send 20 cents in coin (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

Has Support Of People

Ordinary English Business Man Is Backing Prime Minister

The entire support of the thinking people in England is back of Mr. Chamberlain. This statement was made in Montreal by Sir Hugo Cunliffe-Owen, chairman of the British-American Tobacco Company, and a recently appointed director of the Canadian Car and Foundry.

"They think his policy of dignified appeasement and building up the defensive strength of the country, to the purpose of ensuring a continuance of democratic ideals of that country, is the only possible line of statesmanship open to him," he said.

"For you see, a war cures nothing. The last war cured nothing. The next war, if it must come—would in my judgment have even more disastrous results than the last one."

The ordinary English business man is 100 per cent. for Mr. Chamberlain.

Bird Experts Baffled

A bird which has baffled ornithologists of the Natural History Museum, is on view in London. None of the experts could define its species or country of origin. About the size of a canary, it was brought from Africa.

Panama hat palms, from which Panama hats are made, grow chiefly in Ecuador and Peru.

Long before the discovery of fire, primitive man knew that some plants were edible and some were not. He found that certain fruits and grains satisfied his hunger more quickly and more lastingly than others did. So the first selection of agricultural plants began, said Dr. Harold A. Senn, of the Division of Botany, Science Service, Dominion Department of Agriculture, in a recent radio talk entitled "The Contribution and Romance of Botany".

At the same time as primitive man began the selection of agricultural plants, he found that some fruits burned his tongue, some were insipid, some made him deathly sick. So the first knowledge of medicinal and drug plants came into being. Similarly, primitive man learned that wood of different trees had different properties, and one day he discovered that certain plant juices left a permanent red stain on his hands. Thus vegetable dyes were discovered.

Today Botany is a branch of science, with offshoots of its own in the specialized branches of horticulture, forestry, plant pathology, and many phases of agriculture. It has a direct bearing on every individual of a nation, for no branch of systematized knowledge has closer or more multifarious contacts connected with the practical production of agricultural crops or in the mode of life of the people. For example, food, grains, fruits, vegetables, spices, and beverages; clothing, cloth, linen, cotton, rayon; house building, particularly of the frame type; newspapers and furniture and flowers, all come from plants.

In Canada the vital importance of botany to the people is seen in the work of the Botany Division, Science Service, Dominion Department of Agriculture. It was against disease in cereal, fruit, and other food plants it furnishes knowledge available for the extermination of weeds and for the conservation of pastures; it ensures the growing of good food plants, particularly of potatoes, by inspection and certification of tubers intended for seed purposes; and, through research in its laboratories, deals not only with the problems affecting plants and their diseases peculiar to the various localities, but makes Dominion-wide surveys of the prevalence of plant diseases.

Business Has Grown Rapidly

Choice Of Many Juices For Breakfast Menu Of Future

For the breakfast menu of a few years hence, rhubarb juice, passion fruit juice, guava juice, strawberry and blueberry juice will be available according to Science Service.

These are the new products that the giant-infant of the food industry, the juice business, is about to make available for the pantry.

Tomato, grapefruit and pineapple juices are the leaders in this array of liquids. Yet prior to 1925 bottled and canned juices were limited to bottled grape juice and small amounts of bottled apple, loganberry and other berry juices.

Grapefruit juice came in in 1926, tomato juice was packed first on an important scale in 1928, and pineapple juice joined the procession in 1931.

The total quantity of fruit and vegetable juices preserved exceeded 32,000,000 cases in 1937. The volume is still growing and tomatoes alone provide approximately 12,500,000 cases annually.

Canned orange juice introduced in 1930 reached large commercial production in 1934. More recently lemon and cranberry juices have appeared, along with the "nectars" of apricots, peaches and pears. Plum, cherry, papaya, currant, tangerine and pomegranate juices are available.

Important To Motorists

A decision of importance to motorists and other drivers was given in the English Court of Appeal when it was held that bystanders who suffered nervous shock from seeing a road accident were entitled in law to damages against the driver responsible.

The inventor of playing cards is unknown.

The World of Wheat

By H. G. L. STRANGE

Director "Crop Testing Plan"

Several plans for the temporary assistance of Western farmers are now being considered by Parliament.

Western opinion, as represented by the Bracken Conference, favours the continuation of the present 80 cent per bushel guarantee on wheat; but some people seem to favor instead a plan for giving additional assistance to those who might have poor or no crops.

Meanwhile it should not be overlooked that the plans being considered only tide over the present emergency, and do not in any way deal with the real problem which must be solved, if western Canada's present wheat industry, and so her farming population is to be maintained. That problem simply to win back world's markets recently lost for about a 100 million bushels a year of Canadian wheat.

The studies I have made force me to conclude that these markets can only be regained, in the long run, by means of a considerable lowering of Canadian tariffs; and so that foreigners can sell more goods to us, enabling them in turn to buy more of our wheat.

I strongly urge all farmers, and other western people, to study most earnestly the future prospects of our wheat industry, with which is so bound up the very existence of us all.

Following factors have tended to raise price: Resumption of buying by China -- Army worms cause considerable damage to Argentine flax seed crop -- Excessive rains falling in Argentine zone -- Officially estimated 2 200 000 acres lost in France owing to frost -- Rye conditions below normal in Poland -- Spain reported having complete negotiations with Argentina for wheat, oats and barley.

Following factors have tended to lower prices: Thrashing returns confirm high Argentine wheat yields -- Continued favorable crop reports from Danubian countries -- Italian winter wheat acreages larger than last year -- Improved weather in American southwest -- Record rains in Australia -- Corn planting begins in U.S. -- Argentine exportable wheat surplus 140 million greater than a year ago.

Westcott Notes.

The Westcott W.I. met for the February meeting with Mrs. H. LeVagood. Mrs. Jacobson had charge of the topic "Agriculture," and dealt with the sugar beet industry in Alberta. She also had sub-topics taken by Mrs. Bowlen, Mrs. Vogel and Mrs. Webster, all of which were very interesting. Plans were made for a social evening to be held on St. Patrick's Day when the members will entertain their husbands and families. In the hyacinth contest Mrs. J. Sailman won first prize and Mrs. C. Vogel second. Entertainment was provided by a Quiz on the towns and cities of Alberta. The next meeting will be held at the home of Mrs. Bowlen on March 30th.

Amateurs Will Broadcast Tonight.

The eight amateurs who were the winners at the elimination concert held last Thursday will broadcast over the CFAC, direct from the stage at the Didsbury Opera House this Thursday evening.

Band concert by the Carstairs Band will precede the broadcast.

Men's rider pants, size 40 and 42 only, regular \$1.50 to clear at only \$1.00 at Scott's.

O. S. A. Experimental Union 1939.

The Olds School of Agriculture Experimental Union again has available for distribution to its members some excellent seeds and plants of field and garden crops. These are listed below. Each member may make four selections.

Anyone interested may become a member of the Experimental Union by paying an annual membership fee of fifty cents. Members of the O.S.A. Alumni Association may make selections without fee.

- 1 Potatoes, four-pound sample, Vicks Early.
- 2 Potatoes, four-pound sample, Bovee.
- 3 Potatoes, four-pound sample, Warba Early.
- 4 Potatoes, four-pound sample, Kathadin Late.
- 5 Red-wing Flax, two pounds.
- 6 Timothy (Gloria) 1/2 pound.
- 7 Two Rhubarb Plants (McDonald or Strawberry).
- 8 Asparagus, 20 1-year roots.
- 9 Gooseberries, Two Plants.
- 10 Three Crabapple Seedlings.
- 11 Three Plum Seedlings.
- 12 Three Climbing Plants.
- 13 Five Perennial Flower Roots.
- 14 Three Lily Bulbs.
- 15 Five Iris Roots.
- 16 Five Packets Home Grown Flower Seeds.
- 17 Five Packets Home Grown Vegetable Seeds.
- 18 Garden Peas, Three Varieties.
- 19 Three Shrubs, Choice of lilac, cotoneaster, elderberry, Siberian almond, dwarf caragana, dwarf old man (limited number only).
- 20 Strawberry Plants, 25.

Our supply of some of this material is quite limited, so some substitution may be necessary. We have limited amounts of seed of a number of the leading varieties of wheat, oats, barley and peas but nothing strikingly new. Members who are interested are asked to write.

Orders will not be accepted after April 30th.

Membership fee of fifty cents must accompany selection. Express or postal charges amount to approximately fifty cents. This should be sent at the same time.

Where there is no railway agent, shipping charges must be prepaid.

Report forms must be filled in and returned to the O.S.A. at the end of the growing season.

"Snow White and the Seven Dwarfs" This Week End

Have you ever dreamed of Gnome-land? Have your dreams brought you into contact with those wonderful beings, the elves, dwarfs, enchanted birds and beasts, witches, lovely ladies that weave magic spells and dance and sing through sunny days and moonlit nights of romance? Such dreams of fantasy come to perfect realization this Friday-Saturday March 10-11 when "Snow White and the Seven Dwarfs" comes to the Opera House as the first Walt Disney picture made in Technicolor ever produced in feature-length.

It's a wonderful feast of thrills, fun and romantic drama, with equal appeal for juveniles and grownups. Everybody has read Grimm's folk tales, in whose fascinating pages "Snow White" and her little dwarf pals were born. There's a never-to-be forgotten treat awaiting you in its marvellously appealing film version!

Patrons are reminded of the times of special performances, which are as follows: Friday 4 p.m. and 8:30; Saturday 1 p.m., 3, 7:30 and 9:15.

Safe Farrowing First Requirement To Avoid Disorderly Marketing.

Disorderly marketing has made a mess of more than one promising line of agricultural production. The orderly marketing of bacon and cuts in the British market by our packing trade is absolutely essential if they are to obtain best prices, retain trade connections, and, what is of the highest importance, retain, let alone improve, our British trade arrangements in the matter of export quotas.

Our packers have gone about the limit in trying to spread large live hog production surpluses in the fall and winter to cover the deficiency in supplies during the summer months. It is up to the producers, individually, to assist by supplying a greater percentage of live hogs right when they are most required.

We persist in offering the Old Country large supplies when every country is doing the same, and our supplies are short on the British market just when in the most demand.

Hogs are scarce on our markets from the end of June until middle of September. From October into the new year our marketings climb to a peak out of all proportion to market requirements and out of all proportion to their value if they could be spread over the summer low marketing season.

There is a distinct limit to what cold storage and the best packing plant practice can do to equalize the marketings and make orderly distribution of our valuable surplus to the Old Country consumer.

If we are not to run the risk of having our Old Country market for our fall and winter hogs reduced by Britain to what we can regularly supply the year around, any month of the year, hog raisers themselves must wake up and do their part to ensure more regular month-to-month marketing of live hogs and a greater supply from June to September.

This means more early autumn breeding and winter farrowing. There is no getting away from it if our hog business is to prosper.

Good prolific breeding stock of the right type is a first essential, proper feeds and the ability to feed them to best advantage, are certainly necessary requirements. However, many good feeding farmers who measure up with good breeding stock, are defeated by lack of safe farrowing accommodation.

The Atlas Lumber Co. Ltd. offers the public their interpretation of safe farrowing accommodation in the way of plans for a Pig Brooder, cheap, safe, simple and ample for farmers intending to keep from six to twelve sows, or who have the idea they might increase their pig production plant to that basis at some future date.

Warble Fly Control.

A community effort for the control of warble flies is emphasized in a circular to be published immediately by the Department of Agriculture.

Because warble flies do not migrate for any considerable distance, concentrated on the part of everyone within a given area will effect almost complete eradication of this pest.

The damage done by warble flies in Canada is estimated at between seven and fourteen million dollars annually. The insect not only spoils hides, but on account of its terrifying effect on cattle, it seriously reduces the yield of milk from dairy cows and retards the gains of beef cattle.

The grubs of the warble flies can be attacked by man only during the period of their development when imbedded in the backs of cattle. At this time the application of derris root powder or a compound of it, either as a powder or a wash has been found most effective. The cost of treatment is remarkably low and farmers are amply repaid for undertaking control measures in this way.

It is recommended that the first treatment should be made when the lumps caused by the grubs become conspicuous on the backs of the animals, and that second and third treatments should follow at 28-day intervals.

Further information on the control of warble flies may be secured from your nearest district agriculturist or you may write direct to the Department of Agriculture, Edmonton.

WORLD HAPPENINGS BRIEFLY TOLD

Eire has officially announced her recognition of the General Franco government of insurgent Spain.

Thirty community pastures have been established in Saskatchewan. These embrace 179,160 acres, enclosed by 922 miles of fencing.

The band of the Portsmouth division of the Royal Marines will not accompany the King and Queen to Canada, it has been announced.

Hon. W. L. Bock, Ontario Hydro commission chairman, predicted in an address that 90 per cent. of New York's World's Fair visitors will also visit Niagara Falls.

A suggestion a fully qualified farmer be appointed to the Canadian board of railway commissioners was contained in a resolution presented to the Ontario Agricultural Council.

The United States supreme court sustained anti-trust charges brought by the justice department against a group of leading motion picture distributors and Texas exhibitors.

The Earl of Egmout of Calgary will visit England in the near future and take his seat in the house of lords, said Miss Ella Meeble, Lady Egmout's sister.

Three Royal Air Force flyers were killed when their plane crashed into the side of a mountain and burst into flames near the Palestine-Trans-Jordan frontier during fog.

The Chinese government was reported to have reached an agreement with French and Russian authorities for establishment of Chinese-French and Chinese-Russian air lines connecting west China with those nations.

TAKE THE LEAD OUT OF YOUR LEGS

Get Oxygen in Your Blood and You'll Get the Pep that Sends You Bounding Up the Stairs

People who smother to death die because oxygen has been completely cut off from them. Just as surely you are slowly smothering if your blood lacks red corpuscles. Red corpuscles are your oxygen-carriers. They carry the oxygen you breathe in to every part of your system. Without enough oxygen-carrying corpuscles, your kidneys, liver, stomach and bowels slow down. Your skin gets pale, flabby, often pimply. Your nerves may become jittery—you tire quickly—feel depressed.

What you need is Dr. Williams' Pink Pills. These world-famous pills help make more and better red corpuscles and thus increase the oxygen-carrying power of your blood. Get Dr. Williams' Pink Pills today at your drugist. See for yourself how quickly this time-proven blood-builder will help give you back your pep.

Makes Good Hideaway

No Better Place To Disappear Than A Big City

To get away from it all, the best method, by general consent, is to take refuge in a great city. There, an indistinguishable atom, among millions of others, who care nothing about one more added to their number, the seeker for seclusion can be undisturbed. In fact, there have been cases where a man who had vanished from home, family and business, and had dropped from sight as completely as if he had stepped into an open manhole, had lived for years within a few blocks of his former abode. Any metropolis shelters hundreds of such enigmas. Usually they remain unknown; often they must pay those who know their secret to remain hidden, as in the case of Muscia, who called himself Coster, and who, while he swindled others, was himself the prey of blackmailers.

An unusual instance of disappearance and discovery is that of a former Texas banker who has admitted that under another name he has been serving a milk route for six years in Memphis. If he chose his occupation deliberately for purposes of concealment, he was shrewd. For the milkman usually piles his culling in early hours, when few are about and seldom sees his customers. But since the Federal government began to take an interest in banks which is the next thing to proprietary, financial fantasies by any one below the rank of a New Deal official have become dangerous. Consequently a circular sent out after the banker's disappearance, which bore his portrait, was at last identified by some one who noted the likeness to the milkman. He was arrested and denied his guilt, but will return to Texas for trial. The moral is that if he had fled to a metropolis he might not have been caught. New York Herald Tribune.

CHIC FROCK ADORABLE BY KIDDLERS

By Anne Adams

The bolero-frock and the suspender-frock are "best beloveds" in fashion—well do kiddies know it from what the grown-ups say! Pattern 4004 combines both styles, and is therefore sure to be almost idolized by "four to twelves" . . . while mothers will appreciate its easy making and its usefulness. One bolero will do with two frocks—and serve as an extra garment after playing, or as a street jacket next Spring. Choose a serviceable wool serge or crepe or stitch up a pretty plaid, to show off the very pretty bias cut of the skirt! Have plenty of tub-cotton blouse so there'll always be one ready to put on.

Pattern 4004 is available in children's sizes 4, 6, 8, 10 and 12. Size 6, jumper, takes 1½ yards 35 inch fabric and blouse, ½ yard 35 inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

RELIEVING COLD DISCOMFORT THIS WAY!

Just Follow Simple Directions
Below—and Use Fast-Acting
"Aspirin" Tablets

It's the Way Thousands Know to
Ease Pain and Discomfort of Colds
and Sore Throat Accompanying
Colds—Easy to Do

The simple way pictured above often brings amazingly fast relief from discomfort and sore throat accompanying colds.

Try it. Then—see your doctor. He probably will tell you to continue with "Aspirin" because it acts so fast to relieve discomfort of a cold. And to reduce fever.

This simple way, backed by scientific authority, has largely supplanted the use of strong medicines in easing cold symptoms. Perhaps the easiest, most effective way yet discovered.

New Appliances

Says Inventors Must Consider The
Effect On Economic Life

In developing a new appliance, engineers must take cognizance of its effect on the economic life of the world. Dr. R. C. Wallace, principal of Queens' University, Kingston, Ont., told more than 200 engineers at the annual convention of the Engineering Institute of Canada at Ottawa.

He cited effect of development of the automobile upon the world. Homes became less permanent as travel increased and living standards changed almost overnight. Motorists insisted on better roads, and governments were forced by public opinion into programs of highway construction they could ill afford.

Deficiency More Marked

Large Number Of Children To-day
Are Not Good Spellers

There are a lot of justifiable complaints against the results of our modern education, and not the least among them is that youngsters to-day are not good at spelling—as a rule. Of course, there have always been those who could not master spelling but the deficiency seems more marked to-day than ever. Youngsters to-day are undoubtedly more advanced in many things than they were at the same age a generation ago, so perhaps spelling must suffer as a result of this greater general knowledge.

Made Many Improvements

Vatican City Became Modern Under Reign Of Pope Pius

Visitors to Vatican City soon discovered why Pope Pius gained the sobriquet of the "modern pope". It is written in steel and marble throughout the tiny state. During his reign, Pius spent millions of lire in Vatican City improvements, mostly after settlement of the vexatious "Roman question," in 1929, which left him sovereign ruler of a definite, temporal state.

The Vatican railroad and station and the broadcasting outfit are perhaps the best-known improvements abroad, and Vatican citizens are equally proud of the new palace of government and the modern electric plant. But the real jewel in the eyes of the Vatican engineering staff is the 60,000,000-lire water system, which transformed a 1,000-year-old layout of cement conduits into 100 kilometres of specially-treated acid-resisting pipe. It gave the Vatican gardens a lawn-sprinkling system.

The Vatican railroad station, built of travertine stone, stands near the great iron gate which opens automatically when a train approaches. For its size, it is the most sumptuous station in the world, with a frontage of 180 feet and a central hall of 60 feet high. The railroad cost about \$1,500,000.

Success And Promotion

Young Man With Initiative And
Ability Can Have Both

It is not sufficient that younger men be given a chance—it is of even greater importance that young men prove themselves worthy of appointments and promotion.

There are countless jobs ready and waiting to be tackled in Canada to-day whenever and wherever young men show the ability, the initiative and the resourcefulness to do them.

Even in the darkest days of a depression it is never literally true that there are only so many jobs to go around. Every young man who by his initiative and resources creates something not only makes employment for himself but often for others as well.

Promotion and success come from accomplishment. Financial Post.

Altering Government House

Australia Is Getting Ready For Her
New Governor-General

Although Federal, State and municipal authorities have not reached satisfactory arrangements for a home in Melbourne for the Duke of Kent and his family, plans are going forward for the residence in Canberra of the new Governor-General. Work has begun on alterations in the Government House in Canberra, including day and night nurseries, a special kitchenette for the preparation of children's meals and nine additional bedrooms.

Preferred Short Sermon

Queen Victoria Had Pulpit Equipped
With Time Glass

According to the Manchester Guardian royalty in general has never cared for the long sermon. Queen Victoria is a case in point. She issued no orders, but she presented the Savoy Chapel with a pulpit glass whose sands were timed to run out in 18 minutes. Many a preacher must have eyed that glass with considerable nervousness in the course of his sermon.

Would Be Invaluable

"Can you do double entry?" asked the employer of the prospective employee.

"I can do triple entry," was the reply.

"Triple entry?"

"Yes—one entry for the working partner showing the true profits, another for the sleeping partner showing small profits, and a third for the income tax collector, showing a loss."

Has Never Been Done

There never has been a round-the-world airplane flight in that such a flight would require girdling the globe at its greatest circumference, either along the equator or along a single degree of longitude.

Chinese merchants employ firefly catchers, who do nothing else during the summer months. Experts catch as many as 3,000 of the insects in a single night.

THE HABITS OF WOMEN

I frequently saw Mary Seaton as she travelled to her job by the same street car. She was a striking-looking girl, tall, erect and well turned out. The darlings little hat, shaped just like a pill-box and not much larger, topped her golden curls. It was winter and her blue eyes were matched by the blue of her frock which, to borrow a commonly-used phrase was "long enough to cover the subject and short enough to be interesting." She wore a grey coloured fur coat which was not becoming. Her stockings were of the sheerest silk. They would not suit me who am accustomed to the thickest woollies, but I should not quarrel with any item of her attire except the foot-gear. They weren't shoes! They were sandals!

As I sat behind this beautiful young creature I saw her cough into her handkerchief. The cough was repeated and I observed a streak of blood. I was disturbed.

Why are young girls so foolish? Why are their mothers so careless? Why tempt fate as Mary Seaton did?

I missed her after the incident referred to. Then I heard that she was in the "Sun". Now and then there were hopeful reports. She was progressing favourably. She would be home for Christmas.

In the rush of Christmas Eve, I bought a paper to read on the car. I glanced at, among other items, the B.M.D. I caught the historic name of Seaton. It was Mary's name. Dead at 21. How sad!

Although cooler than the outside air, the interior of the Great Pyramid at Gizeh, Egypt, is excessively hot, due to lack of ventilation.

IF YOU FEEL SUNK Read this and cheer up

Are you so blue that life is no longer worth living? Do you cry easily? Do you feel low, mean, depressed—just absolutely SUNK?

Then here's good news for you in case you need a good general system tonic—Just take famous Lydia E. Pinkham's Vegetable Compound. Let its wholesome herbs and roots help Nature build up more physical resistance and tone up your system, so that it can more easily throw off the "blues" and give more energy to enjoy life.

MILLIONS of women have depended upon this Compound and have passed the word along to friends and neighbors, and to their children.

Why not take Pinkham's Compound and go "smiling thru"?

MR. CAFFEINE-NERVES fails to spoil Mary

MANY people can safely drink tea and coffee. Many others—and all children—should never drink them. If you are one of these, try Postum's 30-day test. Buy Postum and drink it instead of tea and coffee for one month. Then, if you do not feel better, return

the container top to General Foods, Limited, Cobourg, Ontario, and we'll gladly refund full purchase price, plus postage. Postum is delicious, economical, easy to prepare, and contains no caffeine.

CHAPTER I.—Continued

"Wild to pioneer, I was; sick to Sunday school and sewing samplers, but my folks wouldn't stir. So I just up'n went! Tied up a few things and my Bible in my old plaid shawl and sneaked out after the folks was fast asleep, and walked the seven miles and crawled into one o' the covered wagons and played possum till he was well under way. There was a preacher among 'em, and the day I was fifteen he married me to Hank Dana."

"But—Great-granny—wasn't that why you ran away? Why you went? Weren't you in love with Great-grandfather?"

The ancestress stared and shook her head. "Never laid eyes on him. You're one o' the dark ones."

"You're one o' the dark ones," till we was a week or more on the way."

Sally Ann laughed. "And all these years I've been nourished on that tender romance!"

"Guess some o' the grand-girls from the East made that up," the old woman said shrewdly.

"Really? Great-granny, I wonder if you'd give me a cup of tea?"

"Not this time o' day, I wouldn't," the old woman said firmly. "I never held with piecing between meals. But Lynn, he's got a lunch waiting for you upstairs, and I guess likely he's wondering where you are." She stepped quickly to the foot of the narrow, precipitous flight and called up: "Oh, Lynn? Comp'ny coming?"

HEALTHY CHILDREN are Happy CHILDREN

CHILDREN of all ages thrive on "CROWN BRAND" CORN SYRUP. They never tire of its delicious flavor and it really is so good for them—so give the children "CROWN BRAND" every day.

Leading physicians pronounce "CROWN BRAND" CORN SYRUP a most satisfactory carbohydrate to use as a milk modifier in the feeding of tiny infants and as an energy producing food for growing children.

THE FAMOUS ENERGY FOOD

CROWN BRAND
CORN SYRUP
The CANADA STARCH COMPANY Limited

"Fine!" came an answering masculine hail. "Yo ho, Sally Ann! Send her up—fast!"

The returned traveller laughed aloud, gladly. "I'll see you again, Great-granny, darling. It's been so nice to—"

"Yes. I want to tell you about Sally Lynn, young Ed's girl. He married a smart woman from Detroit; toney and determined. Well, she's a thin, dark, close-mouthed young-one, odder'n Adam's off ox. Minute I clapped eyes on her in the cradle, I knew. 'Well, Adelaide, you got one o' the queer ones,' I says, and it made her madder'n a wet hen. But it's true; you'll see. Say, mebbe you'll take her off with you when you go? She'd admire to put out somewhere, Sally Lynn would."

Sally Ann shook her head. "Mercy, no, Great-granny! I'm the last person—I know nothing about children, and, besides, I'm alone and love it! I'm a lone wolf."

The ancestress regarded her gravely out of her bright, sunken eyes. "We're all lone wolves, us dark ones. Looks like we ought to run together. That young-one ought to get away, Sally Ann!"

Sally Ann laughed. "She will, if she's any good. Didn't I?"

CHAPTER II.

Sally Ann Dana got through the first difficult moments of her meeting with her third cousin by making persistent talk about the nonagenarian.

"But—Isn't she priceless? Ninety-six—and so quick and keen and clear! She's like—what?—a crisp, brittle little old autumn leaf blowing along."

"Exactly," he agreed. "And I'm hoping that she may just blow on and away, some day. It should be like that."

"I believe it will be. One can't conceive of helplessness and indignities for her. I'm sure she'll just suddenly—and simply—stop."

She walked to the window and stood looking out, her back to him.

"Gasping for your tea?" He rang. She turned toward him and he nodded approval. "You've pasted down the calendar, haven't you, Sally Ann?" He offered her a cigarette.

She shrugged, leaning nearer for a light. "Aunt Helena says I'm skin and bones."

"Nice skin and bones. The grand-girls, as the matriarch calls them, will thirst for your gore; a lot of too, too solid flesh at Danavale. Thanks, Jens. Miss Dana will pour for me. You remember Jens, Sally Ann?"

"Of course! How are you, Jens?" The tall, stooped Swede was very well and hoped she was the same. He arranged the tray with heavy care and went creaking away.

"Oh, this is nice!" the traveller said contentedly. "Did Jens make these sandwiches? Fancy with those sledge-hammer hands! But—why the third cup?"

"Sarah Lynn. She's very keen to meet you here, rather than at home, or at Aunt Helena's."

Sally Ann's black brows lifted. "Must I muss up my first returning raptures with the Infant Class?"

"This child is rather special. Enough like you to be, in kennel talk, your little sister."

"Ah! 'The dark one' Great-granny wants me to take abroad? Well, I won't." She took a second sandwich. "I haven't the faintest intention of weighing myself with entangling alliances. I'm utterly, comfortably selfish and intend to remain so. That's what keeps me young and

spry," she told him cheerfully. "Duty-doin' Danas, I observe, wax portly."

The man in the wheel-chair laughed. "Isn't it astonishing how the dark legend persists?"

"Absurd, of course." "Exactly. Though Cousin Adelaide—Sarah Lynn's mother—rose to battle with the foolish fable. She considers it a quaint and annoying tribal superstition. If Sarah Lynn is a square peg—which she does not for a moment concede—she must and shall, notwithstanding, be snugly fitted into her round hole."

"And does she bring it off?"

He shook his head. "Sarah Lynn merely walks through her part, usually scowling. Cousin Adelaide gave her a large and heavy coming-out party, but she didn't emerge. Now I fancy the idea is to get her married as expeditiously as possible and whisked away from the local landscape."

"Married? I thought she was a child."

"Nineteen. Her mother imported a pallid youth named Duncan Van Doren a couple of years ago—son of her dearest friend in her native Detroit, who needed a milder climate, winters, and who match-makes busily but to no avail."

"Ah?" said his third cousin civilly but without enthusiasm. "Lynn haven't said whether you liked my 'Musical Miles'?"

"Enormously! I wrote you, but the letter evidently passed you at sea. Extraordinarily nice piece of work, Sally Ann. The Salzberg 'Festpiece' chapter was a gem! You're having topping notices, aren't you?"

"Not bad. Someone's coming." A door had banged below.

"Come up, Sarah Lynn!" the man called.

But thundering steps took the stairs in bounds and a boy of seventeen burst into the room. He was fair and freckled, with a wide mouth and singularly innocent eyes.

"Bill!" Lynn Dana greeted him, surprised. "This is Sarah Lynn's brother, Sally Ann."

"How do you do, Bill? Will you have some tea?"

"Gosh, no," he said, shocked. "No, thanks, Uncle Lynn, I can't sit down. I got to beat it before Sara Lynn gets here, and don't peep to her that I came, will you?" He turned to the woman with a vivid fusion of embarrassment and urgency. "Say, listen, would you take my sister with you when you go travelling again?"

Sally Ann smiled at him. "Afraid I couldn't do that, Bill."

"Gee, she's simply got to beat it, that's all! she can't stick around here much longer."

"But—why?"

He looked nervously out of the window. "Well, I can't make you understand, I guess, because I got to make it snappy, but she's different from most of the dumb eggs around here and my mother can't see it, and

Heartburn, Gas?

If you are troubled with gassy, sour, acid stomach or heart-burn, you want to improve your digestion. A tonic that tends to improve digestion is Dr. Pierce's Golden Medical Discovery. Mrs. Gordon Wells, 179 King St. E., Hamilton, Ont., writes: "I used to feel gassy and sour, and heart-burn, and I have tried many remedies, but none helped me. I have been using Dr. Pierce's Golden Medical Discovery for some time, and it has helped me very much. I feel like a new person. I have lost five pounds, and I am in much better health than I was before." Druggists everywhere.

she makes her do all the things they do, and there's a dumb egg here from Detroit that my mother's always pulling for and Sarah Lynn can't see him with a spy-glass, but I'm scared stiff she'll just sort of boil over, if you know what I mean, and do something dumb!" He came to a breathless stop, his round blue eyes on her face.

Sally Ann found him singularly appealing. "Oh, I'm sure she won't, with you to look after her, Bill! Great luck for a girl to have a brother on the job."

"Yeah, but look—I'm in high school all day and in bed all night, account I'm in training, and she has to do all these dumb things, and she's absolutely cuckoo about my mother and she wants to please her and when my mother's sore at something, why Sarah Lynn just pretty near dies, so it's got me down, kind of, worrying, and—" he looked out again. "Gee! I gotta take it on the lam! Here she comes! Well, look—you kind of think it over, will you? Uncle Lynn, you tell her!" He plunged out of the room and they heard him leaping down the stairs.

"Rather a dear, that lad!" Sally Ann said. She set her cup down and walked to the window to see a girl and a greyhound coming up the road at a smooth and lively speed. "She's wearing exactly the right dog for her type, isn't she?"

"Quite! It's a thing to watch—Sarah Lynn and Lightning skimming over the fields," said the man who had sat in a chair for more than 20 years.

(To Be Continued)

Would Aid Refugees

Campaign For Funds To Help Scientists And Scholars

A campaign for funds to help scientists and scholars driven from their own countries has been opened in London by the Society for the Protection of Science and Learning, which already has found positions in Canada for six academic refugees. Sir Samuel Hoare, Home Secretary, told a campaign meeting the brains of foreign immigrants had enriched Great Britain's national life industrially, commercially and scientifically. Aid to refugee scholars would help make Britain the "intellectual centre of the world."

Very Few Are Bandits

Large Number Of Chinese Guerrillas Are Loyal Farmers

Much is heard from time to time about Chinese guerrillas and how they harass the Japanese armies. Only a small percentage are bandits and even the latter are loyal to China. The fact is that a very large percentage of the guerrillas are Chinese farmers determined to do all they can to save their country from being conquered by the Japanese. They are a sort of militia, and they are both brave and clever. They are largely equipped by young Chinese, many of whom were educated in America.

Curb On Spending

German travellers on pleasure cruises will in future be allowed to spend only five marks—about \$2 at each foreign port. If the ship calls at two or more ports on the same day a total of five marks must suffice. The maximum money spent on a pleasure cruise must not exceed 50 marks, about \$20.

Prices de Leon discovered earlier on March 27, 1913. 2295

Survey Is Interesting

Designed To Help Farmers Adjust Production To Prospective Demand

While export markets are as restricted as they are to-day, says the Kingston Whig-Standard, a major problem of the Canadian farmer is planning the production of his own farm to take the greatest possible advantage of the markets available. Experts of the Dominion Department of Agriculture have just completed a survey which many farmers might, with profit, tack up on the barn door and refer to frequently throughout the year. It is designed to help them adjust production and marketing to prospective demand.

In general, the experts prophesy that larger supplies of wheat and other farm products will probably result, under the stimulation of the new trade agreements, in larger agricultural exports in 1939. Prices of farm produce generally may improve somewhat as business conditions continue an upward trend. Price levels of 1937 cannot be expected, however.

There is now more feed grain in the country per animal to be fed than at any time during the past eight years. This is not merely because more grain was grown last season; the livestock population itself is the lowest in eight years. The experts, moreover, saw little prospect of important increases in livestock population before the latter part of 1939. The number of cattle in Canada, which has been very low for the past three years, will continue to decrease throughout the year. Sheep and horses will remain about the same numerically. The hog population will show some increase during the first six months of the year, a further increase in the following quarter, and a substantial increase in the last three months.

On the question of grain production, the experts were naturally unable to predict with any great degree of assurance. They foresee the possibility of wheat average reduction, especially in the United States, but they admit that the important factor in 1939 grain production will be the average yield per acre and that is a matter that will depend mainly on the weather.

In Central America, there are beetles so large that they can break the windshield of a car travelling at high speed.

Ancient ruins in Mexico, on being excavated, have yielded matoroles carefully wrapped in mummy cloth.

MUSCULAR RHEUMATIC PAINS—ACHES

It takes more than "just a salve" to bring relief. It takes a "counter-irritant." Like good old Musterole—soothing, warming, penetrating and helpful in quickly overcoming the local congestion and pain when rubbed on the aching spots.

Muscular lumbago, soreness and stiffness generally yield promptly.

Better than the old-fashioned mustard plaster, Musterole has been used by millions for 30 years. Recommended by many doctors and nurses. Made in Canada, in three strengths: Regular, Children's (mild), and Extra Strong. All drugists, 40¢ each.

LOCAL & GENERAL

Bert Cressman, of Raven, is visiting in town.

Capt. Eric Ings, Provincial Scout Secretary, will visit the local scouts and cubs on Wednesday, March 15.

An error has been made in the C.P.R. excursion to Edmonton advt. The ticket price should read \$3.70.

Miss Lorna Clarke, who is attending the University of Alberta, visited her home here last weekend.

Miss Dorothy Huget, of Calgary, spent the weekend with her parents here.

Sandy Caithness went to Calgary on Saturday to play with the band at the hockey game.

Miss Jo Booker, who is attending Normal at Calgary, visited her home here over the weekend.

Legion social evening this Friday, March 10th at 8:30 in the Legion Hall. Cards and dancing. All returned men and their families welcome.

Mrs. Wm. Sutherland, of Ponoka, this week visited her mother, Mrs. George Smith, who is in the hospital here. She also visited other friends here.

Mrs. Kercher returned Wednesday from Calgary. She had visited her daughter, Mrs. Frank Good, who underwent an operation on Thursday last. She reports that Mrs. Good is progressing favorably.

St. Cyprian's W.A. will hold a social at the Legion Hall on Monday March 20th. Cards and dancing. Everybody welcome. Come and have a good time. (2)

Westcott Literary Society will give a 3-act play, "Closed Lips," at Westcott School this Friday, March 10th at 8:30 p.m. Mrs. Otto Folkmann is directing. An evening of 2 1/2 hours' splendid entertainment.

We carry a complete line of harness leather and all harness repair parts.—T. E. Scott.

The miracle of the screen is here this weekend—Walt Disney's first full-length feature, "Snow White and the Seven Dwarfs," at the Opera House. Friday: 4 p.m. and 8:30 Saturday: 1 p.m., 3, 7:30 and 9:15.

Mr. William Ahlgrim left on Tuesday evening to attend the session of the Grand Lodge of Alberta, I.O.O.F. convening at Medicine Hat, as the representative of Sunnyslope Lodge. He was accompanied by his son Roland, who will also attend Grand Lodge.

Knox United Church Notes

The services next Sunday will be in charge of the minister, who will deal with the topic "The Place of Righteous Indignation in the Christian Life." We are now living in a world of mistrust and hatred, and we are indignant as we note the cruel effects of that hatred. What is the message of the Christian Gospel for such a situation?

A cordial invitation is given to all.

Curling Notes

Finals in the Merchants' Event in the bonspiel were played off Thursday evening last, when the McGhee rink beat Ward Wyman by a score of 12-10.

McGhee came from behind, being down 6-0 at the end of the 4th. They settled down, however, and were one up coming home on the last end. McGhee made sure of the game by laying one on the button which Wyman failed to dislodge completing a close game of 12-10.

The result gave McGhee 1st prize Wyman 2nd, Berscht 3rd and Huget 4th.

The final rinks were: McGhee, Tom Johnson, Tom Morris and Tom Wyman

Ward Wyman, Norman McLeod, Ivan Weber and Ed. Watkin.

The local curlers brought home the Macdonald Cup from Innisfail last Wednesday night when two local rinks got the best of Innisfail.

McCloy beat Lennox 19-17, while Ward Wyman lost to R. Bowe 15-14, giving Didsbury a lead of one.

The Didsbury rinks were: McCloy, Jake Huget, Studer and Jim Halton.

Ward Wyman, McLeod, Kaufman and Wordie

Clearing \$1.75 and \$1.50 winter shirts for \$1.25 at Scott's.

Melvin Notes.

Mr. and Mrs. Godfrey Carlson were Sunday dinner guests of Mr. and Mrs. August Krebs.

Mr. and Mrs. Emil Dupont were were Tuesday evening visitors at the home of Mr. and Mrs. Ross Youngs.

Mrs. C. E. Youngs is spending some time with Mr. and Mrs. Frank Ingham.

We are sorry to hear that Mrs. Peter Johnston has been confined to her bed for the past week, but we pleased to know she is improving.

Emil Krebs returned from Calgary last week after spending a few days in the city taking treatments for sinus trouble. We are glad to hear that he is feeling better.

Mrs. Wm. Wilson spent a few days last week with her daughter, Mrs. Wm. Summers. Monday afternoon Mrs. Summers and her guest visited Mrs. Godfrey Carlson.

Contestants from Melvin fortunate enough to win first prizes in the Didsbury Amateur contest last week were Ethel Landeen and Olga Dupont, while Donald Radford won a second prize. Ethel and Olga will be heard on the CFAC broadcast from Didsbury tonight (Thursday), 10 to 10:30.

T. E. Scott is giving 20 per cent discount on all lines of men's wool sweaters.

Dad Beats Son.

Father and son skipped rinks this weekend when Mel Huget brought a rink from Calgary to curl against his father. Jake Huget. Dad took revenge by scoring a victory of 17-11. At Calgary recently Mel got the best of his dad in a 14-8 decision. The rinks were: Mel, Huget, Bob Gooder, Alex — and Frank Raymond, Jake Huget, Jack McCloy, Ward Wyman and Tom Johnson.

Sale and Redemption of Impounded Animals.

Notice is hereby given under Section 48 of the Domestic Animals Act (Municipalities), that the following animals have been impounded and sold, and may be redeemed by the owners or on their behalf within a period of thirty days, from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs due to the municipalities and the purchasers of said animals.

Impounded in the pound kept by George Metz, located on the S. 24-31-27-4, on the 18th day of February, 1939, and sold on the 2nd day of March, 1939—

One red steer coming two years old, no visible brand; to James McCulloch, Didsbury.

For information apply to—
A. BRUSO, Sec. Treas.,
Municipal District of Mt. View
No. 310, Didsbury, Alberta.

CARD OF THANKS

Mr and Mrs Stewart Greig and relatives wish to take this opportunity of thanking their many friends for the kind expressions of sympathy and for the floral contributions and other gestures of respect during their recent bereavement particularly Mr and Mrs. Abe Newfield, who opened their home to receive distant relatives and friends; also those who kindly assisted Mrs. Newfield.
